Part 1. Chart of Accounts
Chapter 1. Design and Prescription

The chart of resource and expenditure/use accounts and the procedures contained in this manual must be used by all library districts as prescribed by the State Auditor's Office (RCW 43.09.200).

The uniform system of accounts is best applied consistently throughout the budgeting, accounting, and reporting cycles. However, it is permissible to use a different system of numbers for internal accounting, so long as equivalent detail is maintained for reporting purposes. The prescribed chart of accounts must be used for detail reporting of revenues and expenditures.

All library districts may follow single-entry accounting and cash-basis reporting procedures which do not reflect financial condition and results of operations in conformity with generally accepted accounting principles (GAAP).¹ This manual is intended for those districts following single-entry accounting and cash-basis reporting.

Those library districts following double entry and GAAP basis reporting should refer to the BARS Category 1 Manual for Cities and Counties and Other Local Governments for GAAP reporting guidance. **However, all library districts must use the prescribed chart of accounts contained in this BARS for Library Districts Manual for detail reporting of revenues and expenditures.**

BARS manuals may be obtained through the State Auditor's Office, Local Government Support Team at (360) 753-4792. BARS manuals are also available electronically via the web page: <http://www.sao.wa.gov>.

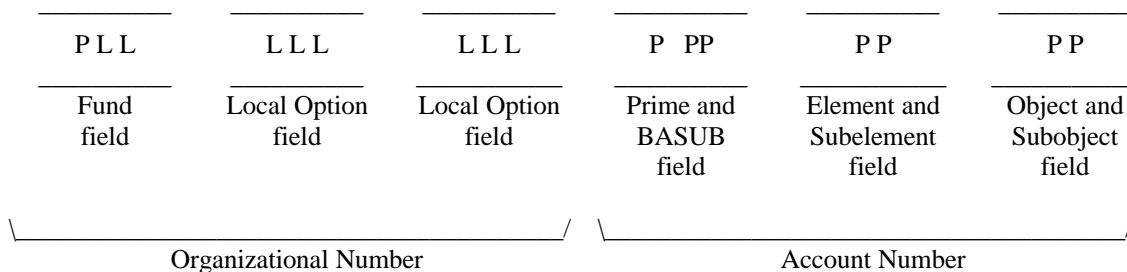

¹ GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP). Uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentation. The primary authoritative body on the application of GAAP to state and local governments is the Governmental Accounting Standards Board (GASB).

Account Code Structure

In the BARS structure a 16 digit code accommodates the various transactions. Of these 16 digits, 7 digits are fully reserved for the Account Number, which means that if you decide to use unassigned portions of this field for local purposes, you should be aware that additional accounting may be prescribed in the future which will supplant your local applications.

In addition to this seven digit account code, a field of three digits is reserved for fund code, another two three-digit fields for the local option code, for a total code structure of 16 digits.

The account structure is designed to provide for complete identification of each transaction.

- P = Specific coding is prescribed in the BARS manual.
 L = The fields are established in the BARS manual, but specific numbers are assigned by each district.

The first part of the account code is an **ORGANIZATIONAL NUMBER** indicating:

	<u>Digits</u>
Fund	xxx
Local Option	xxx
Local Option	xxx

You may use the unassigned numbers (L) for additional coding.

The second part of the account code is the **ACCOUNT NUMBER**, consisting of:

	<u>Digits</u>
Prime Digit	x
Basic and Subaccount (BASUB)	xx
Element/Subelement	xx
Object/Subobject	xx

The account code structure has the following components:

FUND NUMBER - used to identify funds created and maintained for a particular purpose and having transactions subject to legal or administrative restrictions.

General (Current Expense) Fund	000-099
Debt Service Funds	200-299
Capital Projects Funds	300-399
Permanent Funds	700-799
Private-Purpose Trust Funds	601-610
Agency Funds	631-699

LOCAL OPTION - These numbers are determined by each district. If used, they must have three digits, so “1” should be “001”.

LOCAL OPTION - These numbers are also determined locally. If used, they must have three digits; i.e., “1” or “23” should be “001” or “023”.

PRIME DIGIT – The first figure in the seven digit Account Number, assigned as follows:

3 (Three) denotes a resource detail (subsidiary) account.

5 (Five) denotes an expenditure/use detail (subsidiary) account.

BASIC/SUB (BASUB) CODES

Resource - The numbers assigned to identify the source (origin or originating category) from which resources are obtained.

Expenditure/Use - The numbers assigned to identify different categories of expenditures incurred.

ELEMENT/SUBELEMENT CODES

Resource - The numbers assigned to further identify specific types of revenues within a particular Basic/Sub category.

Expenditure/Use - The numbers assigned to further identify specific types of activities related to the particular Basic/Sub category.

OBJECT/SUBOBJECT CODES

Resource - Generally, the numbers have not been defined, and are available for the additional coding by the district. However, as the BARS manual is updated, it may be necessary to define these codes.

Expenditure/Use - The numbers assigned to identify expenditures according to the character and the type of items purchased or services obtained.

Part 1. Chart of Accounts

Do **NOT** post transactions to summary accounts. Account headings and parenthesis indicate if a particular account is considered a summary account.

(330) INTERGOVERNMENTAL REVENUES (Summary Account)

Grants, entitlements, shared revenues and payments for goods and services provided by one government to another. Private grants are recorded in account 367 and intergovernmental loans are recorded in 391.80.

(331) DIRECT FEDERAL GRANTS (Summary Account)

Cash or other assets furnished by the federal government under contractual arrangements that provide aid or reimburse the district for costs incurred.

Direct federal grants are distinguished from indirect grants by the fact that direct grants are received from a federal department or agency without passing through an intermediary state or local government or other nonfederal agency. All direct federal grants should be coded using this account number. Federal loans are recorded in account 391.80.

Coding Instructions

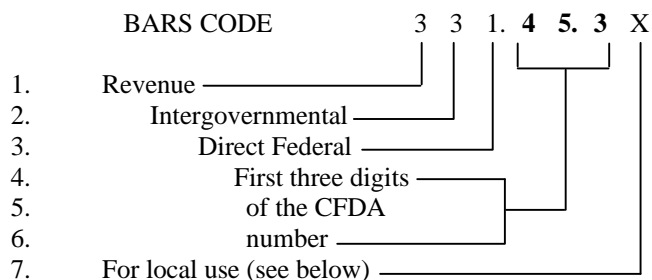

The following coding procedures apply to federal grant moneys. They apply whether such arrangements are called *awards, grants, block grants, subsidies, programs, cost reimbursements, contracts, or agreements*. The coding does not apply to entitlements, shared revenues, on intergovernmental service revenues (see Revenue Accounts 332, 335, and 338)).

All codes for federal grants are abbreviated versions of the numbers assigned by the federal government itself in the Catalog of Federal Domestic Assistance (CFDA).

Most agreements with federal agencies include references to the funding program in the first few paragraphs of the agreement. The exact title of the funding program is what you need to find the catalog number.

Grants from federal agencies will be coded using the first three digits of the program's CFDA number.

Example: District receives a direct federal grant. The title of the grant is National Leadership Grants awarded by the Institute of Museum and Library Services. The CFDA number is 45.312. The BARS code for this grant is 331.45.3X

If more than one grant with the same CFDA number is received, use the seventh digit (shown by "X") to distinguish them. You may also use the seventh digit to distinguish different program years of the same grant.

(332) FEDERAL ENTITLEMENTS, IMPACT PAYMENTS, AND IN-LIEU TAXES (Summary Account)

332.15.23 PAYMENT IN-LIEU OF TAXES. U.S. Department of Interior, Bureau of Land Management. Payments are made to each unit of local government in which federally owned entitlement land is located. Funding limitations may require prorata payments. Funds received are subject to post-audit review of data submitted by the state. (Title 31, USC, Section 6902, P.L. 97-258)

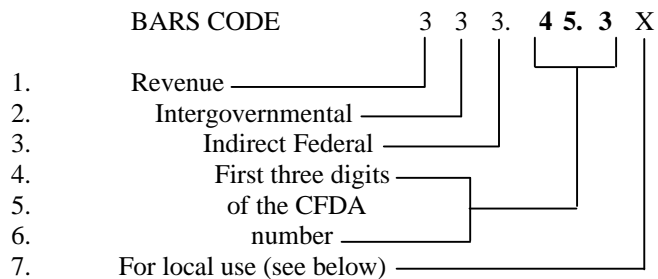

332.15.60 PAYMENT IN-LIEU OF TAXES. U.S. Department of Interior, U.S. Fish and Wildlife Service. Funds are paid to the county and are further distributed by it on a proportional basis to those units of local government which have wildlife refuge lands and waters administered by the Secretary of the Interior. Payments are made to those local governments that have incurred a loss or reduction of real property tax revenue due to the existence of the wildlife refuge lands. (Refuge Revenue Sharing Act, as amended Title 16, USC, Section 715s)

332.81.10 PAYMENT IN-LIEU OF TAXES. U.S. Department of Energy. Funds are paid to Benton County and are further distributed by it on a proportional basis to those units of local government included in a settlement agreement with the Department of Energy.

(333) INDIRECT FEDERAL GRANTS (Summary Account)

Indirect federal grants are distinguished from direct grants by the fact that they are passed through one or more intermediary governments or nonfederal agencies (including Indian tribes) before reaching the district.

Example: District receives a federal grant indirectly through a state agency. The title of the grant is State Library Program awarded by the Institute of Museum and Library Services and received by the district through the State Library. The CFDA number is 45.310. The BARS code for this grant is 333.45.3X.

If more than one grant with the same CFDA number is received, use the seventh digit (shown by "X") to distinguish them. You may also use the seventh digit to distinguish different program years of the same grant.

Federal loans are recorded in account 391.80.

(334) STATE GRANTS (Summary Account)

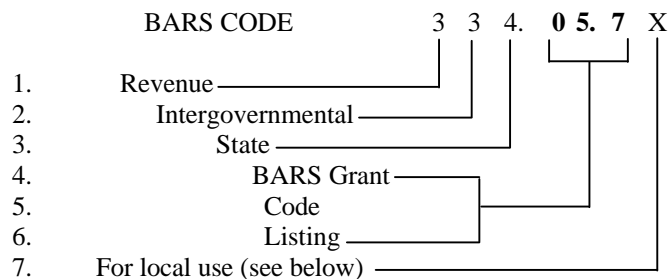

Cash or other assets furnished by the state government to districts directly or indirectly, through another local government, under contractual arrangements that provide aid or reimburse the district for costs incurred. Do not confuse state grants with grants received from the state but originating with the federal government; when the state is acting as an agent of the federal government, the grants should be classified as indirect federal grants, account 333.

Coding Instructions

The following coding procedures apply to all state grant moneys. They apply whether such arrangements are called *awards, grants, block grants, subsidies, programs, cost reimbursements, contracts, or agreements.*

Code state grants by the state agency that provides the grant using the three-digit code listed below.

Example: District receives a state grant from the State Library.

If more than one grant is received from the same agency, use the seventh digit (shown by “X”) to distinguish them. You may also use the seventh digit to distinguish different program years of the same grant.

335.02.33 SALE OF TIMBER FROM STATE FOREST LAND. Counties' share of proceeds from sale of timber from state forest lands managed by the Department of Natural Resources. Do not confuse interlocal grants with grants received from another local government but originating from the federal or state government. These grants should be coded as 333 or 334.

Part 2. Accounting
Chapter 1. Internal Control

This section contains the standards to be followed by library districts in establishing and maintaining systems of internal control. Effective internal control systems ensure that the following objectives are achieved:

- 1) Transactions are properly accounted for to:
 - a) permit the preparation of reliable financial statements and statistical reports;
 - b) maintain accountability over assets; and
 - c) demonstrate compliance with laws, regulations, and other compliance requirements;
- 2) Transactions are executed in compliance with applicable laws, regulations, and the provisions of contracts or agreements
- 3) Funds, property, and other assets are safeguarded against waste, loss, unauthorized use or disposition, and misappropriation.

The following concept of internal control is useful in understanding and applying the standards set forth and discussed on succeeding pages:

An internal control system consists of the plan of organization, and methods and procedures adopted by the library district board to ensure that resource use is consistent with laws, regulations, and policies; that resources are safeguarded against waste, loss, and misuse; and that reliable data are obtained, maintained, and fairly disclosed in reports.

The ultimate responsibility for good internal controls rests with management. In order to ensure the proper conduct of library district business, management must periodically review its internal control systems.

INTERNAL CONTROL STANDARDS

The following internal control standards, based on those established by the U.S. General Accounting Office (GAO), define the minimum level of quality acceptable for library district internal control systems in operation and constitute the criteria against which systems will be evaluated.

General Standards

- 1) **Reasonable Assurance.** Internal control systems are to provide reasonable assurance that the objectives listed in the section above will be accomplished. The standard of reasonable assurance recognizes that the cost of internal control should not exceed the benefit derived. In making this determination, the library district should identify:
 - a) Risks inherent in district operations,
 - b) The criteria for determining low, medium, and high risks, and
 - c) Acceptable levels of risk under varying circumstances.
- 2) **Appropriate Organizational Structure.** The organization of a library district is designed to provide its management with the overall framework for planning, directing, and controlling its operations. Good internal control requires:
 - a) Clear lines of authority and responsibility,
 - b) Appropriate reporting relationships, and
 - c) Appropriate separation of authority.

- 3) **Competent Personnel.** Managers and employees are to have personal and professional integrity and are to maintain a level of competence that allows them to accomplish their assigned duties, as well as understand the importance of developing and implementing good internal controls.
- 4) **Control Objectives.** Internal control objectives are to be identified or developed for each library district activity and are to be logical, applicable, and reasonably complete.
- 5) **Control Techniques.** Internal control techniques are the mechanisms by which control objectives are effectively and efficiently achieved. Techniques include, but are not limited to, such things as specific policies, procedures, plans of organization (including separation of duties), and physical arrangements (such as locks and fire alarms).

Specific Standards

- 1) **Documentation.** Internal control systems and all transactions and other significant events are to be clearly documented, and the documentation is to be readily available for examination.
- 2) **Recording of Transactions and Events.** Transactions and other significant events are to be properly classified and promptly recorded.
- 3) **Execution of Transactions and Events.** Transactions and other significant events are to be authorized and executed only by persons acting within the scope of their authority.
- 4) **Separation of Duties.** Key duties and responsibilities in authorizing, processing, recording, and reviewing transactions should be separated among individuals.
- 5) **Supervision.** Qualified and continuous supervision is to be provided to ensure that internal control objectives are achieved.
- 6) **Access and Accountability for Resources.** Access to resources and records is to be limited to authorized individuals, and accountability for the custody and use of resources is to be assigned and maintained.

Audit Resolution Standard

Prompt Resolution of Audit Findings. Managers are to:

- Promptly evaluate findings and recommendations reported by auditors,
- Determine proper actions in response to audit findings and recommendations, and
- Complete, within established time frames, all actions that correct or otherwise resolve the matters brought to the management's attention.

Part 2. Accounting
Chapter 2. Electronic Funds Transfer

Electronic funds transfer (EFT) is the deposit to or disbursement from a bank account by means of wire or other electronic communication. RCW 39.58.750 governs the circumstances under which electronic fund transfers may be used. The following accounting procedures are recommended:

1) Receiving money by EFT:

- a) Prepare a receipt upon receiving notice from the payer that the funds have been transferred to the district's bank account. Do not wait for the bank to notify the district of receipt of the funds. However, you may want to contact your bank to confirm the expected funds have arrived.

Enter the following information on the receipt:

- ♦ Date of receipt.
 - ♦ Name of entity transferring money into the district's account.
 - ♦ Grant number, if applicable.
 - ♦ BARS account number.
 - ♦ Notation that funds were received by EFT.
- b) A file must be maintained of those payers who have agreed in writing to add money to the library district's account electronically.

2) Disbursing money by the EFT:

- a) Prepare a record which shows:
- ♦ Chronological number of the EFT payment.
 - ♦ Time and date of disbursement.
 - ♦ Payee – name, address and account number.
 - ♦ Amount of disbursement.
 - ♦ Purpose of disbursement.
 - ♦ BARS or other accounting system expenditure account number.
 - ♦ Name and number of fund(s).
 - ♦ Disbursing bank's unique transaction identification number, if available.
 - ♦ Receiving bank or financial institution's identification number.
- b) A file must be maintained of authorizations signed by payees who have thereby agreed to have money added to their accounts electronically.
- c) The library district should notify the disbursing bank that access to files, records and documentation of all EFT transactions involving the library district should be provided to the State Auditor when required for the conduct of the statutory post audit.

Part 2. Accounting
Chapter 3. Cash Receipting

Listed below are requirements for deposits and receipt forms. Also provided are recommended internal control procedures for cash receipts.

1) Deposits:

- a) Deposit checks and money collected and/or received promptly (once every 24 hours, if possible).
- b) Deposits must be intact, and the composition of checks and cash must match the bank deposit slip and related receipts.
- c) Checks must be restrictively endorsed "For Deposit Only" immediately upon receipt.

2) Receipt Forms (manual or automated):

- a) Receipt forms must be pre-printed, pre-numbered, and in duplicate.
- b) Receipt forms must include the following information:
 - ♦ Name of payer (address if feasible)
 - ♦ Amount received
 - ♦ Mode of payment (cash, check, EFT, other)
 - ♦ Purpose of payment
 - ♦ Name of employee who prepares receipt
- c) If a receipt is voided, the original and any copies of that receipt must be retained.

3) Separation of duties and review:

- a) Ideally, two employees should prepare a list of cash and checks received. For small library districts with limited staff, as a minimum a system of supervisory review of the remittance list and bank deposits should be in place.
- b) The deposit should be prepared by someone other than the person who received the payment. However, as noted above, because of limited staffing this may not be feasible. In such cases, the district should implement a system of supervisory review of the remittance list and bank deposits.
- c) Checks received in the mail should be reviewed for accuracy (e.g. proper payee, date, signature of payer, etc.). Checks with obvious inaccuracies should not be included in the deposit. In such a case, the district should contact the payer and request that the payment be corrected or reissued.
- d) The remittance list should be compared (reconciled) to deposit slips and to the cash receipts (or check register) on a regular basis.
- e) A monthly Treasurers Report should be prepared and reviewed at every monthly district board meeting, approved by the board, and included as part of the district meeting minutes.

4) Safeguarding:

Cash receipts should be properly protected during the operating day and, if they cannot be deposited that day, secured overnight.

Part 2. Accounting
Chapter 4. Travel (Chapter 42.24 RCW)

For the purpose of the BARS, travel expenses include amounts paid for use of personal automobiles, other transportation, and actual expenses or reimbursement in lieu of actual expenses for meals, lodging, and related items.

The board of trustee's of each library district must pass a resolution establishing rules and regulations regarding reimbursement of travel expenses for district officials and employees. The resolution should discuss the district's policy on tipping, charging expenses to the district, and it should prohibit reimbursement for personal expenses and entertainment.

If a library district utilizes credit cards for travel related expenses, the board must pass a resolution establishing rules and regulations that satisfy provisions of Chapter 42.24 RCW, including:

- 1) Limiting the use of credit cards to authorized travel expenses only.
- 2) Submission of a fully itemized travel expense voucher by the employee or district board member.
- 3) Settlement by the employee or board member within 30 days of the billing date.
- 4) The establishment of a lien against a salary for any disallowed charges.

Claims for reimbursement of travel expenses must contain a signed certification that includes the following language:

"I hereby certify under penalty of perjury that this is a true and correct claim for necessary expenses incurred by me and that no payment has been received by me on account thereof."

Part 2. Accounting
Chapter 5. Petty Cash

For the purpose of the BARS, petty cash includes change funds, working funds, revolving funds, stamp funds, etc. In other words, any sum of money or other resources set aside for such specific purposes as minor disbursements, making change, and similar uses. If petty cash is disbursed, it is periodically restored to its original amount by a check charged to the applicable expenditure account. The amount of the check should be equal to the total disbursements.

The following are minimum requirements for the establishment and operation of a petty cash fund:

- 1) The board of trustees must authorize the petty cash fund by resolution. This applies to any subsequent increase or decrease in the total petty cash amount.
- 2) The board must appoint one custodian of the petty cash fund. Ideally, the person handling petty cash would be independent of invoice processing, general accounting, and cash receipts functions. For small districts with limited staff, a system of periodic supervisory review of the cash receipts and/or bank reconciliation adds controls when complete segregation of duties is not possible. The custodian should sign a receipt upon receiving petty cash funds.
- 3) The board should assure that the amount in petty cash is periodically counted and reconciled by someone other than the custodian.
- 4) The custodian should assure the petty cash is kept in a safe place.
- 5) The petty cash amount may be established by check.
- 6) If petty cash is disbursed, it must be replenished at least monthly by check payable to the custodian. The replenishment should be subject to the same review and approval as processed invoices. The replenishment must be by voucher with the appropriate receipts attached. The receipts should show the date, recipient, purpose, and amount of each cash disbursement. These receipts must be signed by the person receiving the money, stamps, etc. The receipts should be perforated or cancelled by some other means to prevent reuse. At the time of replenishment, the custodian should ensure that the balance remaining in petty cash, together with the amount of the replenishment voucher, equals the authorized petty cash amount.
- 7) The fund may not be used for personal cash advances even if secured by check or other IOUs. Petty cash should always be replenished at the end of the fiscal year so that expenditures will be reflected in the proper accounting period.
- 8) Whenever an individual's appointment as custodian is terminated, the fund must be replenished the petty cash amount turned over to the board.

Part 2. Accounting
Chapter 6. Voucher Certification and Approval

Claims Certification

All claims against the district must be preaudited and certified by the district's auditing officer or his/her delegate. The certification may be made on each individual claim voucher or, subject to the acceptance and approval of the board, a blanket voucher certification may be used so long as it indicated the particular vouchers so certified. The use of a blanket voucher certification in no way relieves the auditing officer of his/her responsibility and liability for each individual voucher so certified.

For all claims, except expense reimbursement claims certified by district employees or board members, the certification must include the following language:

"I, the undersigned, do hereby certify under penalty of perjury that the materials have been furnished, the services rendered or the labor performed as described herein and that the claim is a just, due and unpaid obligation against _____ Library District, and that I am authorized to authenticate and certify to said claim."

Employee Reimbursement Certification

The auditing officer's certification for employee/officer expense reimbursement claims must include the following language:

"I, the undersigned, do hereby certify under penalty of perjury that the claim is a just, due and unpaid obligation against the District, and that I am authorized to certify to said claim."

The certification by the auditing officer in no manner relieves members of the board members from the responsibility and liability for each voucher approved. It is the board's responsibility to ensure that the system of auditing and certifying vouchers is operating in a manner to provide the greatest possible protection for the board and the district.

Approval Methods

To indicate board approval for payment of claim vouchers and payroll, the following statement must be entered in the minutes:

The following voucher/warrants are approved for payment:
(Funds)
Voucher (warrant) numbers: _____ through _____ and totaling \$ _____
Payroll warrant numbers: _____ through _____ and totaling \$ _____

If the board authorizes the procedure, the district may issue warrants before the board approves claims. To do this, the district must enact the following policies and procedures (required in Chapter 42.24 RCW):

- 1) The auditing officer and the officer designated to sign the warrants must have an official bond. The amount should be determined by the board but cannot be less than fifty thousand dollars. (RCW 42.24.180)
- 2) The board must adopt contracting, hiring, purchasing, and disbursing policies that implement effective internal controls.

- 3) The board must review and approve the claims paid at its next regularly scheduled public meeting.
- 4) If the board disapproves some claims, the auditing officer and the officer designated to sign the warrants must recognize these claims as receivables of the district and pursue collection diligently until the amounts are either collected or the board is satisfied and approves the claims.

The board may stipulate that certain expenses will not be paid before the board has reviewed the supporting documentation and approved the issue of warrants in payment of those expenses. For example, the board may allow the staff to pay normal, recurring claims such as phone, payroll, utility bills, etc., but may reserve for itself the discretion to approve major equipment purchases.

Supporting documentation must be retained and attached to the vouchers and cancelled by the auditing officer to prevent reuse. Districts should send original vouchers and supporting documentation to the county auditor. Copies must be filed in the district office. The detailed accounts to which the expenditures are to be posted must be clearly designated.

Vouchers and supporting documentation must be filed in a manner that allows rapid identification and retrieval of all the vouchers of a particular fund, program, or account code.

Part 2. Accounting

Chapter 7. Grant Accounting

The requirements and procedures described below apply to library districts with programs funded with federal funds and/or federal funds that are passed through the state and/or a local government to the district. Excerpts from U.S. Office of Management and Budget (OMB) Circular A-133, Circular A-87, and the Common Rule are provided in this section. Please note that there are many additional federal laws and regulations that may apply to a library district's grants. Copies of these circulars and other federal documents can be obtained from the U.S. Government Printing Office. To order these documents, contact the Region-10 office in Seattle at (206) 553-4270. They are also available on line at the OMB web site.

The Common Rule

The Common Rule (an attachment to OMB Circular A-102) sets forth uniform administrative requirements for grants and cooperative agreements. The financial management systems of a library district must meet the following standards:

- 1) **Financial reporting.** Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.
- 2) **Accounting records.** The library district must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.
- 3) **Internal control.** Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. The library district must adequately safeguard all such property and must assure that it is used solely for authorized purposes.
- 4) **Budget control.** Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant.
- 5) **Allowable cost.** Applicable OMB cost principles, agency program regulations, and the terms of the grant and subgrant agreements must be followed in determining the reasonableness, allowability, and allocability of costs.
- 6) **Source documentation.** Accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

OMB Circular A-87

Expenditures of federal funds and costs claimed for reimbursement or used for matching must be determined in accordance with OMB Circular A-87, *Cost Principles for State and Local Governments*. This circular provides criteria for determining whether costs are necessary, reasonable, and allocable. It also lists specific types of costs and expenditures that are allowable and unallowable.

OMB Circular A-133

The Single Audit Act of 1984 (and Amendment of 1996) sets forth uniform requirements for audits of federal financial assistance provided to state and local governments. Single audit requirements are provided in OMB Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations*.

According to OMB Circular A-133 "... non-federal entities that expend \$300,000 or more in a year in federal awards will have a single audit conducted ... except when they elect to have a program-specific audit" Circular A-133 outlines specific responsibilities for the auditee:

- 1) Identify, in the accounting records, all federal awards received and expended, including the name of the federal grantor agency and pass-through agency (if applicable), the Catalog of Federal Domestic Assistance (CFDA) title and number, and the award number and year.
- 2) Maintain internal control over federal programs that provides reasonable assurance that the grantee is managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that have a material effect on the federal program.
- 3) Comply with laws and regulations and the provisions of contracts or grant agreements related to the federal program.
- 4) Prepare appropriate financial statements and Schedule of Expenditures of Federal Awards (see Schedule 16, Part 3, Chapter 2, Page 26).
- 5) Ensure audits are performed and submitted when due.
- 6) Follow up and take corrective action on audit findings, including preparation of a Summary Schedule of Prior Audit Findings and a Corrective Action Plan.
- 7) Submit a Data Collection Form and a reporting package to the federal clearinghouse (refer to the OMB Circular A-133 for details).
- 8) Library districts that expend less than \$300,000 in a year in federal awards are exempt from federal audit requirements for that year, but records must be available for review or audit by appropriate officials of the federal agency, pass-through entity, and General Accounting Office.

Part 2. Accounting

Chapter 8. Inventories and Capital Assets

Definition

Generally, the term capital assets means real and personal property the library district intends to use or keep for more than one year. Capital assets include land and land rights; buildings, their furnishings, fixtures, and furniture; equipment, machinery, vehicles, and tools.

Accountability means the obligation to demonstrate good management of or control over those matters for which a library district is responsible.

A capital assets management system is the set of written policies and procedures used to control a library district's capital assets and demonstrate accountability.

General Requirements

Specific requirements of the State Auditor's Office are contained on subsequent pages. In addition, the federal government has issued property management requirements that apply to all governments that receive federal assistance. Each federal agency has published a Federal Agency Implementation of the Common Rule. Excerpts from the Common Rule have been included in this section. Note that these requirements involve broad stewardship responsibilities and specific accounting records.

Rationale

The duty to make certain that public property is adequately protected and that its use is properly managed is one of the fundamental responsibilities of library district officials. District officials have several broad responsibilities with respect to capital assets:

- 1) **Custody.** The responsibility for custody means having the answers to such questions as:
 - a) What property and equipment does this district own?
 - b) Where is it?
 - c) What condition is it in?
 - d) Is it protected from loss and unauthorized use?
- 2) **Insurance.** The second major responsibility for capital assets is providing adequate insurance. A capital asset accounting system should provide adequate records to prove any losses. Location, inventory, and maintenance records will confirm that a lost or damaged asset has been in use recently, which will support the validity and timeliness of a theft or damage report.
- 3) **Maintenance and Repair.** The third major responsibility is maintenance. As a steward of public property, a library district supervisor has the obligation not only to safeguard assets from loss but also to ensure that they are not neglected or wasted.
- 4) **Planning.** The fourth general category of responsibility is planning for future asset needs both short and long term. Here a library district supervisor needs answers to questions such as:
 - a) How well is the district using the facilities and equipment it already has?
 - b) Which items must be replaced, when and at what cost?
 - c) When will additional facilities or equipment be needed and at what cost?
 - d) Which facilities or equipment will not be needed, and what cost reductions in maintenance, insurance, and security will result from liquidating them?

Establishing the Capital Asset System

Designing and establishing a capital asset system requires systematic planning activities:

- 1) Establish the objectives of the capital asset system and make permanent policy decisions which will shape both the initial establishment of capital asset inventory and maintenance of the system.
- 2) Design the plan for taking the initial inventory, for verifying and testing the data, and for establishing a value for each recorded asset.
- 3) Determine when and how to implement controls over additions and deletions to the capital asset inventory.

A detailed guide for establishing a capital asset system is available on request from the State Auditor's Office.

FEDERAL COMMON RULE – PROPERTY MANAGEMENT

All federal agencies administering programs that involve grants are to issue a common grants management rule (Common Rule). The requirements listed below are the general rule, however some federal agencies may publish deviations from the Common Rule due to statutory requirements.

1) Real property

- a) **Title.** Subject to the obligations and conditions set forth in this section, title to real property acquired under a grant will vest upon acquisition in the library district.
- b) **Use.** Except as otherwise provided by federal statutes, real property will be used for the originally authorized purpose as long as needed for that purpose, and the district will not dispose of or encumber its title.
- c) **Disposition.** When real property is no longer needed for the originally authorized purpose, the district will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:
 - ♦ **Retention of Title.** Retain title after compensating the awarding agency. The amount paid to the awarding agency will be computed by applying the awarding agency's percentage of participation in the costs of the original purchase to the fair market value of the property. However, in those situations where a district is disposing of real property acquired with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.
 - ♦ **Sale of Property.** Sell the property and compensate the awarding agency. The amount due to the awarding agency will be calculated by applying the awarding agency's percentage of participation in the cost of the original purchase to the proceeds of the sale after deduction of any actual and reasonable selling and fixing-up expenses. If the grant is still active, the net proceeds from the sale may offset against the original cost of the property. When a district is directed to sell property, sales procedures will be followed that provide for competition to the extent practicable and result in the highest possible return.
 - ♦ **Transfer of Title.** Transfer title to the awarding agency or to a third party designated/approved by the awarding agency. The library district will be paid an amount calculated by applying the district's percentage in participation in the purchase of the real property to the current fair market value of the property.

2) Equipment

- a) **Title.** Subject to the obligations and conditions set forth in this section, title to the equipment acquired under a federal grant will vest upon acquisition in the library district.

b) Use

- ♦ Equipment will be used by the district in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a federal agency.
- ♦ The district will also make equipment available for use on other projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use will be given to other programs or projects supported by the awarding agency.
- ♦ The district must not use equipment acquired with grant funds to provide services for a fee to compete unfairly with private companies that provide equivalent services, unless specifically permitted by federal statute.
- ♦ When acquiring replacement equipment, the district may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

c) Management Requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with federal grant funds, until disposition takes place will, at a minimum, meet the following requirements:

- ♦ Property records must be maintained that include:
 - A description of the property
 - A serial number or other identification number
 - The source of the property
 - Who holds title
 - The acquisition date and cost of the property
 - Percentage of federal participation in the cost of the property
 - The location, use and condition of the property
 - Any ultimate disposition data including the date of disposal and sales price of the property
- ♦ A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
- ♦ A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft will be investigated.
- ♦ Adequate maintenance procedures must be developed to keep the property in good condition.
- ♦ If the district is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

d) Disposition. When original or replacement equipment acquired under a federal grant is no longer needed for the original project or program or for other activities currently or previously supported by a federal agency, disposition of the equipment will be made as follows:

- ♦ Items of equipment with a current per-unit fair market value of less than \$5,000 may be retained, sold or otherwise disposed of with no further obligation to the awarding agency.

- ♦ Items of equipment with a current per-unit fair market value in excess of \$5,000 may be retained or sold and the awarding agency will have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency's share of the equipment.

e) **Federal Equipment.** In the event a district is provided federally-owned equipment:

- ♦ Title will remain vested in the federal government.
- ♦ Library districts will manage the equipment in accordance with federal agency rules and procedures, and submit an annual inventory listing.
- ♦ When the equipment is no longer needed, the district will request disposition instructions from the federal agency.

f) **Right to Transfer Title.** The federal awarding agency may reserve the right to transfer title to the federal government or a third party named by the awarding agency when such a third party is otherwise eligible under existing statutes. Such transfers will be subject to the following standards:

- ♦ The property will be identified in the grant or otherwise made known to the grantee in writing.
- ♦ The federal awarding agency will issue disposition instructions within 120 calendar days after the end of the federal support of the project for which it was acquired. If the federal awarding agency fails to issue disposition instructions within the 120 calendar-day period, the district will follow the proceeding guidelines provided in subsection (d) *Disposition*.

3) **Supplies**

a) **Title.** Title to supplies acquired under a grant will vest, upon acquisition, in the library district.

b) **Disposition.** If there is a residual inventory of unused supplies exceeding \$5,000 in total aggregate fair market value upon termination of completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the district will compensate the awarding agency for its share.

4) **Copyrights.** The federal awarding agency reserves a royalty-free, non exclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for federal government purposes:

- The copyright in any work developed under a grant; and
- Any rights of a copyright to which a district or a contractor purchases ownership with grant support.

STATEMENT C-4 - FUND RESOURCES AND USES ARISING FROM CASH TRANSACTIONS - DETAILED

Library districts that prepare financial statements in conformity with GAAP should submit their basic financial statements instead of the C-4.

Statement C-4 should be prepared for the general (current expense) fund and any other funds with \$250,000 or more in revenues (except agency funds).

- To prepare, enter the beginning amount of net cash and investments. Then summarize both Schedules 04 and 05 by BASIC code:

 - Other financing sources (390)
 - Current expenditures accounts (570)
 - Debt service (591-593)

 - Nonrevenues (380 excluding investment activity account 384), and
 - Nonexpenditures (580 excluding investment activity account 584),

and put them on the appropriate lines of Statement C-4. Foot the statement to calculate ending net cash and investments.

- Beginning and ending net cash and investments on Statement C-4 should equal the *Beginning Net Cash And Investments* on Schedule 04 and *Ending Net Cash And Investments* on Schedule 05.

To prepare, enter beginning net cash and investment. Then enter total revenues and other financing sources (310-360 and 390) per Schedule 04 and total expenditures and other uses (570 and 591-599) per Schedule 05 on the proper lines of Statement C-5. In addition, nonrevenues and nonexpenditures (380s and 580s) (excluding investment activity - accounts 384 and 584) should be included on the appropriate lines of Statement C-5. Then foot the statement to calculate ending net cash and investments.

Beginning and ending net cash and investments on Statement C-5 should equal the *Beginning Net Cash And Investments* on Schedule 04 and *Ending Net Cash And Investment* on Schedule 05.

SCHEDULE 04 - DETAIL OF REVENUES AND OTHER SOURCES

Prepare Schedule 04 for each fund.

All accounts must be reported at the subelement level and the 330 series (Intergovernmental Revenue) must be further detailed to the subobject level.

Beginning Net Cash and Investments, or *Beginning Fund Balance* (account 308) should equal prior year *Ending Net Cash and Investments*, or *Ending Fund Balance* (account 508).

Totals should be calculated and clearly identified for each Basic revenue account (i.e., 310, 320, 330, etc.).

List all intergovernmental revenues. Expenditures associated with appropriate intergovernmental revenues (federal awards and state/and local financial assistance) should be reported on Schedule 16.

If there is only one line within the Basic number, use this as your total line. You do not have to include a separate total line. Just make sure that this amount will be included in the total.

This line is optional.

List all interfund loan receipts (account 381). Include in the description column the name of the fund loaning/repaying the money. The amount in this line should equal to the corresponding 581, *Interfund Loan Payment* or *Repayment* in the loaning/repaying fund. Provide a summary of interfund loan activity in the notes to financial statements.

List all nonrevenues except 384, *Proceeds from Sales of Investments*. This account is a reclassification between cash and investments, and both categories are already included in account 308, *Beginning Net Cash and Investments*, or *Beginning Fund Balance*. Listing the account 384 here would cause double-counting. The amount may be listed as a separate line at the end of schedule after grand total.

List all bond proceeds. These amounts should equal to the *Amount Issued - Current Period* column on Schedule 09. The following accounts should have required information:

- 391 Proceeds of Long-Term Debt
- 393 Proceeds of Refunding Long-Term Debt

Total Resources should include:

- 308 Beginning Net Cash and Investments, or Beginning Fund Balance
- 310-360 Revenues
- 380 Nonrevenues (except 384), and
- 390 Other Financing Sources.

To verify correctness of this schedule, compare total resources with the amount of all 500 accounts on Schedule 05. Both amounts must be equal.

The schedule may be submitted on a computer printout, a diskette (3 1/4), or in handwritten form (please print). In either format, the schedule should include MCAG number (four digits), BARS account number, and actual amounts received.

SCHEDULE 05 - DETAIL OF EXPENDITURES AND OTHER USES

Prepare Schedule 05 for each fund.

All accounts must be reported by Basub, element, subelement (if applicable), and object level, not subobject. List expenditures in numerical order according to BARS codes.

Note: For consistent BARS reporting, purchases of collection materials (books, etc.) are to be reported under 572.20 Library Services (object .30 Supplies), not under 596.72 Capital Expenditures (object .60 Capital Outlays). This BARS reporting requirement applies to all districts.

A subtotal should be calculated and clearly identified for each Basic expenditure account (i.e., 510, 520, etc.). If there is only one line within the Basic number, use this as your total line.

List all interfund loan disbursements (account 581). Include in the description column the name of the fund with the corresponding 381, interfund loan receipts and provide a summary of interfund loan activity in the notes to financial statements.

List all nonexpenditures, except account 584, *Purchase of Investments*. This account is a reclassification between cash and investments, and both categories are already included in the account 508, *Ending Net Cash and Investments*, or *Ending Fund Balance*. Listing the account 584 here would cause double-counting.

List all principal payments of long-term debt (account 591) *Redemption of Long-Term Debt*. These payments should equal the amounts listed in the *Amount Redeemed This Period* column on Schedule 09. Also include capital lease payments.

Total Expenditures and Other Financing Uses should include:

- 572 Expenditures
- 580 Nonexpenditures (except 584), and
- 590 Other Financing Uses.

Account 508, *Ending Net Cash and Investments*, or *Ending Fund Balance* will be the *Beginning Net Cash and Investments*, or *Beginning Fund Balance* on the next year Schedule 04.

This line is necessary to verify correctness of this schedule. Compare the amount in this line with the amount of all 300 accounts on Schedule 04. Both amounts must equal.

The schedule may be submitted on computer printout, a diskette (3 1/4), or in handwritten form (please print). In either format the schedule should include MCAG number (four digits), fund number, BARS account number, and actual amounts expended.

SCHEDULE 09 - LONG-TERM DEBT

This schedule provides information about the long-term debt of the library district. Library districts have two categories of debt: general debt and refunded debt. A separate debt schedule should be prepared for each category of your debt. The appropriate category should be indicated at the top of each page.

Any debt category may contain numerous kinds of debt instruments. For example, general debt is not limited to general obligation bonds but can also contain bond anticipation notes, claims and judgments, installment sales contracts, lease purchase agreements, etc.

This schedule may be submitted as a computer printout, so long as the required information is provided.

NOTE: For Schedule 09, list all bonded debt at par. Include principal only on all debt. Do not include any interfund debt, liabilities for deferred compensation, employee leave benefits or any short-term debt (less than one year). Generally, construction contracts are not considered debt except to the extent the contractor has performed.

DATE OF ORIGINAL ISSUE/DATE OF MATURITY These columns are self-explanatory.

BEGINNING OUTSTANDING DEBT This column should include total amount of debt that was owed at the beginning of this period. The amount shown should equal the last year ending balance. If there is a discrepancy, please attach an explanation.

AMOUNT ISSUED IN CURRENT YEAR In this column report the entire amount of any new debt or any additional debt issued (or borrowed) during the current period. For example, assume a G.O. bond authorized in the previous year at \$5,000,000, with \$4,000,000 issued that year and an additional \$500,000 issued in the report year. Under these circumstances, this column should show \$500,000.

AMOUNT REDEEMED IN CURRENT YEAR In this column, report the amount of debt that was paid this period. Do NOT include interest paid on the redeemed debt. The total amount in this column should equal long-term payments shown on Schedule 05 (Object code 70).

BARS CODE FOR REDEMPTION/REDEEMING FUND NUMBER Include BARS codes used for posting of the redemption of the debt. Also provide fund number in which the redemption occurred. You may use more than one line if the redemption of the debt was split among several funds.

ENDING OUTSTANDING DEBT In this column, report the amount of debt that is owed at the end of this period.

Ending outstanding debt (column) is calculated by adding the amounts in columns and and subtracting redeemed debt in column .

Do not include cash or investments that will be used to make interest payments during the initial months of the subsequent fiscal year prior to property tax collections. Also, do not include uncollected taxes from prior years except taxes specifically levied for debt redemption.

LEGAL LIMITS OF INDEBTEDNESS – LIBRARY DISTRICTS (RCW 39.36.020)

1. Indebtedness For General Purposes Without A Vote Of The People.

LEGAL LIMIT @ 3/8 of 1% on the value of taxable property within the district.

2. Indebtedness For General Purposes With A 3/5 Vote Of The People.

LEGAL LIMIT @ 1.25% on the value of taxable property within the district.

The value of taxable property is the actual value of taxable property in the district, ascertained by the last assessment.

The last assessed valuation is the valuation placed on the last completed and balanced tax rolls of the county preceding the date of contracting the debt or incurring liability (RCW 39.36.010 and .015). By the time this schedule is prepared, assessed valuation data has been updated for next year's tax levy. The most current assessed value available should be used.

NOTES TO PREPARER

1. The total indebtedness for general purposes with or without a vote cannot exceed 1.25% of the value of taxable property.
2. The 3/8 of 1% of indebtedness available without a vote is valid only if the amount of indebtedness with a vote is 7/8 of 1% or less. Any indebtedness with a vote in excess of 7/8 of 1% will proportionately reduce the margin available without a vote.
3. When calculating indebtedness include all applicable assets and liabilities.
4. If assets equal or exceed liabilities, record zero for indebtedness incurred.

SCHEDULE 16 - EXPENDITURES OF FEDERAL AWARDS AND STATE/LOCAL FINANCIAL ASSISTANCE

The Schedule of Financial Assistance is an essential document for planning and conducting the audit of the district. It also serves to provide assurance to those agencies which award financial assistance that their programs or grants were included in the audit. It is important to prepare this schedule carefully to ensure that it is accurate and complete. Any program or grant omitted from this schedule will be considered unaudited. This schedule should be prepared on the same basis of accounting as the financial statements.

Schedule 16 is comprised of two schedules: (1) Schedule of Expenditures of Federal Awards and (2) Schedule of State and Local Financial Assistance.

Schedule of State and Local Financial Assistance

List on this schedule grants received directly or indirectly from state agencies (334), grants from other local governments (337), and program income.

List separately awards received from state and local governments. Provide a subtotal for both categories and a total for the entire schedule. In addition, list all financial assistance received from the same state agency together.

Schedule of Expenditures of Federal Awards

Include on this schedule all expenditures of federal awards that were received directly from a federal agency and indirectly through a state agency or local government. This schedule should be prepared for the year in which federal awards are expended. Preparation of this schedule should not be based on the date(s) that funds are received (e.g., advances or reimbursement). "Federal awards expended" include the following:

- Expenditure transactions associated with grants, cost-reimbursement contracts, cooperative agreements, and direct appropriations;
- Disbursement of funds passed through to subrecipients;
- Receipt of loan proceeds under loan and loan guarantee programs;
- Receipt of federal property and surplus property;
- Receipt or use of program income (see revolving loan exception below);
- Distribution or consumption of food commodities;
- Disbursement of amounts entitling a non-federal entity to an interest subsidy; and
- Insurance contracts in force during the period under audit.

List all financial assistance from the same federal agency together on the schedule. Next, within each federal agency section, list all direct awards first followed by indirect awards.

Provide subtotals for programs with the same Catalog of Federal Domestic Assistance (CFDA) number. Also provide subtotals for assistance received directly and assistance received indirectly. Provide a total for each federal agency.

Valuation of Federal Loans and Noncash Assistance

Use the following guidelines to calculate the value of “federal awards expended” under loan programs:

- (1) Amount of new loans received during the fiscal year, plus
- (2) Balance of loans from previous years for which the federal government imposes continuing compliance requirements, plus
- (3) Any interest subsidy, cash, or administrative cost allowance received.

Note: Loans, the proceeds of which were received and expended in prior years, are not considered federal awards expended when the laws, regulations, and the provisions of contracts or grant agreements pertaining to such loans impose no continuing compliance requirements other than to repay the loans.

Noncash Assistance: Food Stamps, food commodities, donated property, and donated surplus property should be valued at fair market value at the time of receipt or the assessed value provided by the federal agency. The Notes to the Schedule of Financial Assistance should disclose the nature of the amounts reported.

Revolving Loans: According to the federal regulations, repayments of principal and interest are considered program income (revenues) and loans of such funds to eligible recipients are considered expenditures. For purposes of Schedule 16, report only the amount of loan funds expended during the year.

Other preparation hints for both schedules

Often federal financial assistance received indirectly is a mix of federal and state or local money. If possible, identify the different sources and list them on appropriate schedules (i.e., the federal share on the *Schedule of Expenditures of Federal Awards* and the state or local portion on the *Schedule of State and Local Financial Assistance*). If the state or local portion cannot be identified, list the entire amount on the *Schedule of Expenditures of Federal Awards* and describe the commingled nature of the funds in the *Notes to the Schedule of Expenditures of Federal Awards*.

Records must agree or reconcile to all supporting documents.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

- Column 1 Provide the name of the grantor agency or organization followed by the name of each program for that agency. Please clearly distinguish between federal agencies and state agencies with similar names or initials. If you receive federal funds indirectly, identify the state pass-through agency. Identify noncash awards in this column also.
- Column 2 List the applicable CFDA number for each program. This is a five digit (XX.XXX) identification number assigned by the federal government and published in the Catalog of Federal Domestic Assistance. This number must be provided for all federal awards received either directly from a federal agency or indirectly through a state agency or local government.
- Every effort should be made to obtain CFDA numbers. If the number is not provided on the award agreement or contract, contact the granting agency and request the number.
- If you are unable to obtain the CFDA number, write “unknown.”
- Column 3 Use this column to report contract or grant numbers assigned by federal or state agencies, in addition to the CFDA number. If a number is not available, write “N/A.”
- Column 4 Use this column to report current year expenditures (determined on the same basis of accounting as the financial statements). See requirements for valuing loans and noncash assistance above.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

At minimum, the notes to Schedule 16 should disclose the basis of accounting and any other significant accounting policies used in preparing the schedule. Also provide any information that may be useful to the reader such as the nature of a revolving loan program or the method used to value commodities or other non-cash assistance.

SCHEDULE 19 - LABOR RELATIONS CONSULTANT(S)

The 1993 Legislature has required the State Auditor's Office to collect information regarding the role labor relations consultants play in local governments. This reporting requirement is found in RCW 43.09.230, as amended by the 1993 Legislature. The statute provides that "the legislature finds and declares that the use of outside consultants is an increasing element in public sector labor relations. The public has a right to be kept informed about the role of outside consultants in public sector labor relations. The purpose of this act is to help ensure that public information is available."

Labor relations is a broad spectrum of activities which concern the relationship of employees as a group with the local government as employer. It includes employee representation issues, negotiation of contracts, and preparation and conduct of interest arbitrations.

A *labor relations consultant* is someone who agrees to perform such services for compensation. For example, a labor relations consultant includes an attorney or other professional engaged by the local government to negotiate a collective bargaining agreement. It would not include a firm engaged to establish a personnel manual or to prescreen job applicants. The determining factor is the substance of services the consultant has been engaged to perform.

This schedule is used to identify expenditures for labor relations consultants. Disclosure should include identification of each consultant and the terms and conditions of each agreement.

The schedule is required to be filed with the State Auditor's Office whether or not the district has labor relations consultants. Prepare a schedule for each consultant. Alternative formats are acceptable, including spreadsheets, as long as the required information is provided.

Chapter 3. Notes to Financial Statements

The notes that follow are designed to illustrate the minimum disclosures required for single-entry, cash-basis library districts and are not in compliance with the requirements of generally acceptable accounting principles (GAAP).
